## ABOUT ME

Hi, I'm Shahabaj Khan. I'm a Data Scientist passionate about building efficient, scalable, and user-focused digital solutions. I work with Python, React, NodeJS, and Machine Learning to turn data-driven ideas into real-world applications.

---

## SKILLS

- **Languages** Python, Javascript, SQL, C++
  - **Libraries & Tools** Pandas, Numpy, Matplotlib, Seaborn, Plotly, Sckitlearn, PyTorch, Ultralytics, OpenCV, MediaPipe
  - **ML Skills** Data Extraction, Data Engineering, Modeling, Regression, Classification, Clustering, Data Visualization, Model Deployment, CNN, Transformers
  - **Web Stacks** Flask, NodeJS, ReactJS, MongoDB, MySQL
- 

## EDUCATION

Lovely Professional University | 2025-2026

**Masters of Computer Applications (MCA)**

AI/ML specialization

---

## COURSE

**Full Stack Web Development Bootcamp**

MERN Stack

---

## PROJECTS

- **Desktop Game: Stone Paper Scissor with Live Gesture**

Auto gesture detection using MediaPipe & OpenCV,  
Backend: Flask, UI: ReactJS

- **Face Locator and Blurring From Scratch**

Live Human face detection using YOLO fine tuning & OpenCV  
Blur face from Scratch using numpy only
