

# SHAHABAJ KHAN

## ML & DATA SCIENCE ENGINEER

ML enthusiast with experience in **deep learning**, **computer vision**, and **real-time image processing**. Skilled in **MERN** stack development and building full-stack apps that seamlessly integrate ML models.

## CONTACT

## SKILLS

### Languages

- Python, JavaScript, C++

### Machine & Deep Learning

- Scikit-learn, PyTorch

### Computer Vision

- Image Classification, Object Detection, OpenCV, YOLO

### Full-Stack Development

- MongoDB, Express.js, React.js, Node.js (MERN stack)

### Data Handling & Analysis

- NumPy, pandas, SQL, Matplotlib, Plotly, Seaborn

### DevOps & Deployment

- Docker, GitHub, Heroku, Render

## EXPERIENCE

### Machine Learning Internship at Prodigy InfoTech

- Animal Image Classification with Pytorch
- Hand Gesture Processing
- Clustering Algorithms: K-Means Clustering from Scratch

## PROJECTS

- Desktop Game: Stone Paper Scissor with Live Gesture
- Workout Counter And Predictor
- Face Locator and Blurring From Scratch
- Pypi Pkg: Custom ML model

## EDUCATION

### Master of Computer Applications (MCA)

- *Lovely Professional University*

### Bachelors of Education (B.ed.)

- *Lucknow University*

### Graduation

- *Lucknow University*

## COURSES

- Getting Started with Machine Learning Algorithms
- Full Stack Web Development Bootcamp

## ACCOMPLISHMENTS

- Topper (Palia) in Intermediate with all subject Distinction
- Topper in High School
